AIRSHIPS FLY OVER CITY OF RICHMOND

Daring Feats are Accomplished by Aviators at the Capital City.

(By Associated Press)
RICHMOND, VA., Nov. 23.—Roland G. Garros and Rene Simon, both using fifty horsepower Bleriot monoplane, flew over the city of Richmond today. Garros flew during the morning, leaving the aviation field at 10:19 o'clock and returning seven and one-half minutes later, during which time he flew a total distance of nine miles, all directly over Broad street for its entire length. Garros used the racing Bleriot that John B. Moisant used when he won the Statue of Liberty international race.

Simon took thirty seconds more for his cross-city flight than did Garros, and then did not cover quite so much distance in a straight line, but he circled continually over one section of the town, looking for his landmark.

Both Garros and Simon flew at an altitude of 3,000 feet and their unfamiliarity with the appearance of the city hall tower, their turning point, caused them to travel farther than they had intended to fly. Both also gave a series of exhibition flights at the local aviation field after their cross-city pilgrimages.

Later still Charles K. Hamilton and Rene Barrier gave a series of exhibition flights at the state fair grounds, the occasion being the four-day meet of the international company which is presenting Moisant, Garros, Hamilton, Simon, Barrier, Frisbie and Seymour to the public.

WANT ANTI-TRUST LAW VIOLATORS IMPRISONED

Many Changes in Statutes Recommended by Trans-Mississippi Congress.

(By Associated Press)
SAN ANTONIO, TEX., Nov. 23.—Railroads and trusts were criticised this afternoon in resolutions introduced by Governor Stubbs, of Kansas, and unanimously adopted by the Trans-Mississippi Commercial Congress.

One set urges the national congress to enact legislation providing for the valuation of railroads in detail.

A second set calls upon the national congress to amend the Sherman anti-trust law, making it mandatory and providing imprisonment for all violations.

Another resolution urges congress to enact a law to regulate the issuance of stocks and bonds of interstate railroads without encroaching upon the rights of states to regulate their corporate and domestic affairs.

Still another is worded: "That we urge upon the Interstate Commerce Commission that it correct these abuses by prescribing rates to the Gulf ports which, with due regard to cost of service and distance, are reasonable and which are not based on rates to and through these so-called gateways, plus the rates back over the same line and thence to the Gulf."

Lackey, the Real Estate Man SAYS

Buy the Watts Farm

This farm is well located on the main shell road, about 2 1/2 miles from Hampton, and is one of the most desirable farms in the county. There is 100 acres of open land and in high state of cultivation, and 10 acres of timber. Farm runs from the County Road to Back River with oyster planting privileges. Mr. Watts spent the past several years bringing this farm up to first class condition, and last year the farm produced some of the finest strawberries in the County, as well as all kinds of truck and hay. The dwelling is comparatively new and of 8 rooms—large barn and necessary out-buildings. You should see me at once if interested in a fine farm.
